#### SYMBIOSIS COLLEGE OF NURSING

#### **PROFESSIONAL GROOMING**

#### 2023-2024

#### Name of SIU Value Added Course: Grooming Young Minds

#### **Course Code: VASCON01**

Grooming has been a point of concern since ancient times. The characterization of a person as "beautiful" whether on an individual basis or by community consensus, is often based on some combination of inner beauty, which includes psychological factors such as personality, intelligence, grace, politeness, charisma, integrity, congruence, and elegance, and outer beauty (i.e., physical attractiveness) that includes physical attributes which are valued on a subjective basis.

Standards of beauty have changed over time, based on changing cultural values. Historically, paintings show a wide range of different standards of beauty. However, humans who are relatively young, with smooth skin, well-proportioned bodies, and regular features, have traditionally being considered the most beautiful throughout history.

Professionalism is for everyone. Everyone associated with health care is a professional. Nurses are often considered as the backbone of the health care community. Most nurses do everything they can to be their best. It is in this spirit of pressing for excellence that Symbiosis College of Nursing has put its step forward to make a great change as it believes in it.

**Objective:** this course on "Professional Grooming" will incorporate grooming aspects like professionalism, soft skills, etiquettes of communication, appearance and so on.
