7.3_SCON_ Institutional Distinctiveness_2023-24

Title: Global & Regional Inter-Professional

Education Plus Program (GRIP)

The GRIP program fosters inter-professional collaboration, cultural exchange, and academic enrichment through immersive experiences at Chiba University in Japan.

Objectives

- Foster greater cultural awareness and appreciation by immersing students in different cultural environments, promoting global citizenship and cross-cultural communication skills.
- Enhance educational experiences by providing access to diverse academic resources, teaching methods, and curricular offerings.
- Improve language skills through immersion in a foreign language environment, facilitating fluency and practical usage.
- Encourage personal development by challenging students to adapt to new surroundings, navigate unfamiliar situations, and develop self-reliance and resilience.
- Build international networks by connecting students with peers, educators, and professionals.

Policy

- Define clear eligibility criteria for participation, including academic performance, language proficiency, and personal attributes such as adaptability and cultural openness.
- Establish a transparent application process that includes submission of relevant documents, interviews, and selection based on merit and motivation.
- Provide information on available scholarships, grants, and financial aid
- Implement measures to ensure the safety and well-being of students abroad,

SYMBIOSIS COLLEGE OF NURSING

Symbiosis International (Deemed University)

(Established under section 3 of the UGC Act, 1956 vide notification No.F.9-12/2001-U3 Government of India)

Re-Accredited by NAAC with 'A++' grade

Founder: Prof. Dr. S.B. Mujumdar (Awarded "Padma Bhushan" in 2012 & "Padma Shri" in 2005)

- Develop and maintain partnerships with reputable institutions abroad to facilitate exchange opportunities and ensure academic quality and support.
- Provide training for students on cultural sensitivity and adaptation

Execution:

The execution of the GRIP program involves meticulous planning and coordination. The program is promoted through informational sessions and online platforms to attract students and faculty. A rigorous selection process ensures participants meet eligibility criteria and have the potential to benefit from the exchange. Comprehensive pre-departure orientations cover cultural adaptation, academic expectations, and safety. Continuous support is provided through regular check-ins, counseling services, and peer networks during the exchange period. Collaboration with Chiba University ensures participants have access to necessary resources, including housing and academic advising.

Learning outcome:

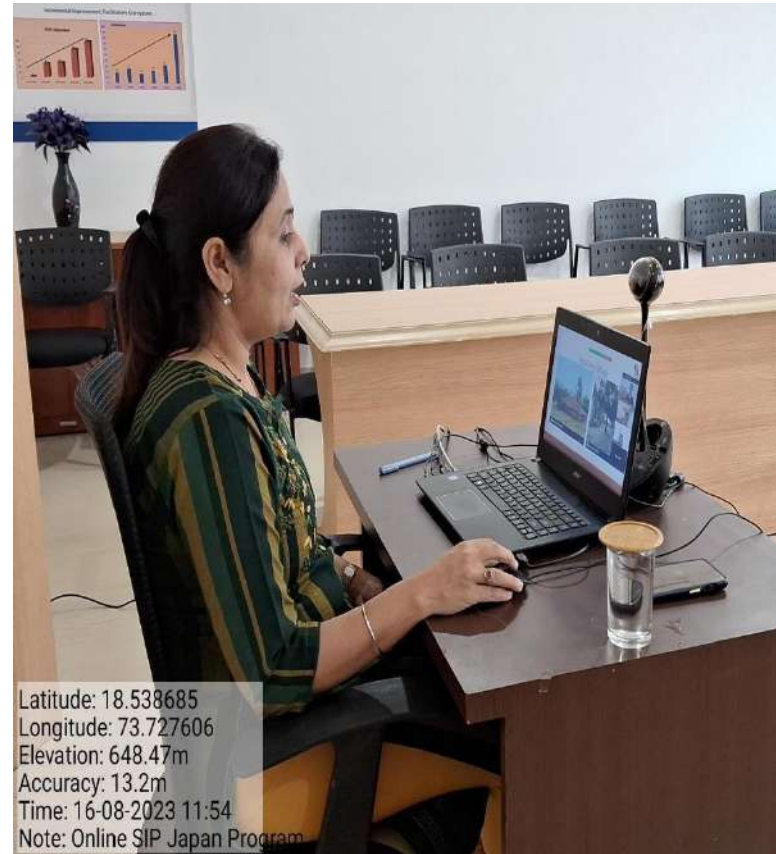

Participants demonstrate increased engagement and interest in their studies and professional activities. They show enhanced critical thinking and collaborative skills by working on interdisciplinary projects. Cultural competence is gained, with participants developing a deep respect for Japanese culture and an ability to work in multicultural environments. They also acquire a broader worldview and a greater understanding of global issues, fostering informed and responsible global citizenship.

DAY 04

Date: March 04, 2024

Schedule summary:

- Morning briefing was done at Chiba University, then we headed to Sanya Area.
- Lecture about Sanyukai History.
- Tour of facility.
- Debriefing

9:00

Morning briefing was taken by Dr. Nakajima at the Chiba University about Sanya Area and Sanyukai.

It is a Nonprofit Organisation established to provide support to the homeless community in the Sanya area.

Sanya area has a history of having lodgings for travelers since the Edo period. After World War II there were several displaced refugees and camps were set for their relief. These camps evolved into "Blue Tents" which are now shelters for the homeless people along the river.

10:00-01:00

Commute to location

Lunch

1:00

Lecture on the history of Sanya area and Sanyukai was taken by the vice president of the NPO. We were told about the condition during the Edo period and after the World War II. The users of Sanyukai receive facilities like:

- Medical support
- Nursing support
- Community
- Soup Runs
- Personal counselling, etc.

The users of Sanyukai often don't have permanent addresses because of which they are unable avail government service like Government subsidies. However, these people can live in cheap lodgings called "Douya". This gives them an address and allows them to apply for government services.

The other faction, who live in Blue Tents do not have any address, and hence, no government support. So, Sanyukai helps these people by providing medical and social support.

Most of these people are elderly men, and do not have families. Sanyukai has built a "Grave for Our Friends" which is a common grave for all the friends at the Sanyukai; a place of remembrance for those who have passed away.

Sanyukai provides meal drives like Outreach program and Soup Run, where they go to the riverside area and provide soup and onigiri (rice balls) to the homeless.

3:00

Director

Symbiosis College of Nursing(SCON)
Symbiosis International(Deemed University)Campus
Hill Base, Lavale, Pune - 412 115

We saw the building and place of operation of Sanyukai. They also have a nursing clinic right in the same building. One nurse is present at the clinic at all times, and various doctors do weekly visits to the clinic and provide care to the people for free.

4:00

Debriefing was done at the Sanyukai facility. We all shared our views and learning's with each other, and ended the day there.

We were not allowed to take many pictures inside since it was a private facility and the people would not be comfortable. We are sharing the pictures that are available.

DAY 05

Date: March 05, 2024

Schedule summary:

- Morning briefing
- then we headed to Sanya Area.
- Visit to Jouhoku Labour Welfare Centre .
- Visit to Cosmos Nursing Centre
- Debriefing

9:00

Briefing was done about both the centres that were scheduled for the day- Jouhoku Centre, and Cosmos.

Jouhoku is a government funded welfare center for day-workers. They provide jobs to people on a day-to-day basis, and the users are able to benefit from some other resources of the facility such as health check ups, recreation etc.

Cosmos is nursing center which provides home visits, assisted living and daycare for the elderly.

11:00-12:00

First we visited the Labour Welfare Centre.

We were able to see the place where the users of Jouhoku come to apply for jobs. This was also the same place where we got to see some Cosmos nurses who had come for a visit for the health checkup of the workers. The centre also had a Tuberculosis Centre where they screen for and treat people who might have Tuberculosis. The clinic was in the basement so as to keep any infectious patients isolated if required. There are also counseling services for the workers to cope with job loss or other matters.

1:00-3:00

Cosmos Visit.

Cosmos Nursing Centre was especially informative. They provide services like:

- Day care
- Home visits
- Assisted living - Ohana

We met the people at the daycare and were able to participate with them in an activity of karaoke.

Unfortunately it was not allowed to take pictures with them for their privacy.

Then we headed to Ohana which is their assisted living home. It has a capacity of 21 people. The users are given 24 hour nursing care by two live-in nurses. They prepare meals, provide hygiene, medical and nursing care.

3:00-4:00

Director

Symbiosis College of Nursing(SCON)
Symbiosis International(Deemed University)Campus
Hill Base, Lavale, Pune - 412 115

Lastly we saw a Hospice Care Centre.

We saw a prayer room where they housed the portraits of those people who had passed away. They room was very inclusive, respectful of various religions.

4:00

Debriefing was done at the Cosmos center.

Hill Base, Lavale, Pune - 412 115

DAY 06

Date: March 06, 2024

Summary:

- Briefing
- Sanyukai meeting
- Outreach

Briefing:

Today the briefing was taken near the site.

Sanyukai conducts weekly outreach sessions to provide food and clothing donated by the volunteers to the homeless people along the Sumeda river.

We were accompanied by 5 volunteers today.

Outreach:

Director

Symbiosis College of Nursing(SCON)
Symbiosis International(Deemed University)Campus
Hill Base, Lavale, Pune - 412 115

The outreach was conducted along the Sumeda River. Many homeless people living along the river reside in “blue tents”. We assisted in distributing food packages prepared by the volunteers along with some fruit and clothes to the homeless.

Due to the cold, we were told, not many people stayed along the river. This affected the number of people we were able to serve today.

However the goal of the outreach was to provide food to those who need it and communicate with them. Both of which were attained.

It was a very fulfilling experience, and we were able to see the actual living conditions of the homeless people in Japan.

DAY 07

Date: March 07, 2024

Schedule summary:

- Morning briefing
- Attended free clinic at Sanyukai
- Debriefing

Director

Symbiosis College of Nursing(SCON)
Symbiosis International(Deemed University)Campus
Hill Base, Lavale, Pune - 412 115

- Presentation preparation

9:45 am

Briefing done on site in Santa area.

Sanyukai hosts a weekly free clinic for homelessness people, and others in need. Different specialty doctors visit every week, along with two volunteer nurses. This week a psychiatrist and an acupuncturist were working at the clinic. All the workers volunteer for free to provide not only physical but also mental and emotional treatment to people. Sanyukai's clinic can prescribe medications and is one of the few free clinics certified by the Health Department.

10:00

The free clinic runs from 10:00 am to 12:00 pm. They attend to all those who come to the clinic irrespective of gender, background etc.

The doctor of psychiatry worked as a general practitioner, assisted by two nurses.

They not only checked the patients' vital parameters and physical ailments, but the doctor was such a friendly person that people were glad to just come to the clinic to talk to someone. The doctor also brought some food that was given out to each patient, and the clinic offers tea to all those who come.

We were able to assist the nurses in some basic procedures. A student participated in physical examination and, I (ayesha) was able to assist in checking blood sugar level of a patient.

The clinic runs for as long as the patients are there and there is no pressure or hurry to finish with the patients. The doctor and nurses talk to the patient as much as they need and assist them as required. If they are unable to provide help at the clinic they direct the patients to hospitals where they can get help.

12:30 pm

Debriefing was done at the clinic, along with the doctors and the nurses present there.

3:00 pm

All groups prepared for the final presentations at Chiba University.

SYMBIOSIS COLLEGE OF NURSING

Symbiosis International (Deemed University)

(Established under section 3 of the UGC Act, 1956 vide notification No.F.9-12/2001-U3 Government of India)

Re-Accredited by NAAC with 'A++' grade

Founder: Prof. Dr. S. B. Mujumdar, M.Sc.,P.h.D.(Awarded Padma Bhushan and Padma Shri by President of India)

Date: 11 Dec 2023

To whomsoever it may concern

To,

Dear Sir/Madam,

Greetings from Symbiosis College of Nursing!

Subject: Application for consideration of students under the JASSO scholarship

We are very delighted that our students have been given the opportunity to travel to Japan under the GRIP. There are in total 10 students who will be travelling to Japan from 29th February to 9th March 2024. Out of these students, 8 have received the JASSO scholarship, in addition to the GRIP funding.

However, 2 students from SCON have not received the JASSO scholarship as they are falling short of the required GPA. Both students are good students and apart from being involved in their academics, are involved in many extracurricular activities. We would therefore like to request you to consider both the students for the JASSO scholarship again. The names of the students are as below for your reference:

1. Keziamol Varkey
2. Sakshi Kad

Thanking you,

Dr. Sonopant. G. Joshi

November 15, 2023

Ms. Nora Catherin Saji
Symbiosis College of Nursing (SCON)
Symbiosis International (Deemed University)
Pune, India

Dear, Ms. Nora Catherin Saji,

On behalf of the Chiba University, I am pleased to invite you for the Global & Regional Interprofessional Education Plus Program (GRIP Program), in Chiba, Japan from February 29, 2024 to March 9, 2024.

We would like you to engage in 10 days of touring and visiting several communities.

During your visit, we will offer a single room at Hotel Sunroute Chiba, locating at WESTRIO 1, 1-4-1 Shinchiba, Chuo-ku, Chiba-shi, Chiba, 260-0031 Japan (Phone : +81-43-301-3301).

I sincerely hope that your visit will contribute to the academic collaboration between our two universities and we look forward to your visit.

Sincerely,

Ikuko Sakai
