7.3_SCON_ Institutional Distinctiveness_2022-23

Community Extension Activities

To develop a responsible student community geared towards building a better society by producing changes in the grassroots level.

To enable students to create a new and just society through dedicated and committed team work by connecting the Poor and Disadvantaged people into the mainstream of life.

Objectives:

- To connect students with the community especially with poor, needy and disadvantaged and realize their duty towards the lesser privileged.
- To make students to understand the society and support the people to uphold and understand their rights and duties.
- To bring about attitudinal change and engage the students in social responsibility initiatives.
- To promote a value-based, casteless, violence-free and knowledge-based society.

Policy

- Outreach programme will be considered as mandatory requirement and integrated into curricular activities.
- Each department of Symbiosis College of Nursing such as Community Health Nursing, Mental Health (Psychiatric) Nursing, Obstetrical and Gynecological Nursing, Medical Surgical Nursing Conducts Community Outreach activities.
- Each department will give exposure to students in community.
- HOD gets approval from the Director to implement community activities.
- Each department will submit a detailed report on their Outreach Programme.
- During the Outreach Day, presentation will be done by each department and beneficiaries may be invited for the programme.

SYMBIOSIS COLLEGE OF NURSING

Symbiosis International (Deemed University)

(Established under section 3 of the UGC Act, 1956 vide notification No.F.9-12/2001-U3 Government of India)

Re-Accredited by NAAC with 'A++' grade

Founder: Prof. Dr. S.B. Mujumdar (Awarded "Padma Bhushan" in 2012 & "Padma Shri" in 2005)

Execution of Community activity

The students have undertaken Community Awareness Programmes on Food and Nutrition, Personal hygiene, Awareness on Non communicable and communicable diseases, Environmental sanitation. Students organized health checkup camps, street play on various health problems in community and performed rally about AIDS awareness in community.

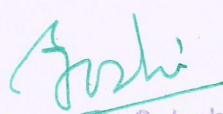

Learning Outcome:

Outreach has exposed students to ground realities of people and their environment. They acquainted with need based planning and intervention based on the problem. Students' decision making capability and leadership improved. Through this, the students have learned empathy for people and their compulsive situations. They have built a sense of accomplishment of having contributed their time and resources.

PREAMBLE

World Hand washing Day

World Hand washing Day, which takes place on October 15 every year, is a day of campaigning throughout the world intended to raise public awareness of the value of using soap and water to wash hands to prevent disease and save lives.

The World Hand washing Association established World Hand washing Day as a chance to develop and put into practice original strategies for inspiring people to cleanse their hands using soap, particularly in times of need.

In 2008, the inaugural World Hand washing Day was observed. Since then, this day has been utilised to raise awareness of the need of having clean hands among both rural and urban population. This is an extremely important message, hand washing is such a basic habit, yet it can actually change everything and save lives.

Why washing hands is important?

One of the easy habits that can actually protect you and your dear ones from a variety of illnesses is washing your hands. During the course of the day at work, many germs are accumulated in our fingernails, nail beds, and between our fingers. Numerous illnesses are caused by these bacteria because they multiply and are consumed.

Contact with an infected individual can result in the transmission of a variety of infectious illnesses, including COVID-19 infections and respiratory and gastrointestinal infections. The proper use of soap and water for hand washing eliminates and destroys germs from our hands and stops the spread of germs from one person to another.

The bacteria and pathogens that cause sickness are eliminated from our hands by hand sanitizers. When we unintentionally touch our eyes, nose, or mouth with contaminated hands, the disease-causing bacteria can spread from infected individuals or from contacting the infected surface.

Both healthy individuals and those with compromised immune systems can avoid diseases by properly washing their hands under running water and soap. You may avoid respiratory illnesses like pneumonia and gastrointestinal infections that cause diarrhoea by washing your hands often. For certain people, including older adults, persons with compromised immune systems, infants, and children, many of these illnesses can be deadly. Even if you are healthy, you can spread these infections.

REPORT

World Hand Washing Day – 2022

by

Department of Medical Surgical Nursing - SCON

October 15 is observed as World Hand washing Day, a World advocacy day which is dedicated to increasing awareness and understanding about the importance of hand washing with soap as an effective and affordable way to prevent diseases and save lives. This year's theme, "Unite for Universal Hand Hygiene," calls for collective action and Symbiosis College of Nursing (SCON) is never behind in creating awareness in the community.

Various events were organised by SCON to bring about awareness to the already talked about action during the deadly Covid-19 pandemic - "HAND WASHING".

The event was planned as under.

Day : Friday

Date : 14th October

Time : 11 am to 1 pm

Venue : Urban Community, Pashan

Faculty In-charge: Mrs. Manisha Mistry & Dr. Dipali Dumbre

Group of students: B.Sc. Nursing 3rd year students – batch 2020-24

Program Schedule

Time	Activity
10 am - 11 am	Assembly of people at the Venue
11.15 am – 11.18 am	Welcome by Ms. Roshni Ladkat, B.Sc. 3 rd year
11.18 am – 11.22 am	Dance by students on 'Hand Washing'
11.22 am – 11.30 am	Skit by students on 'Hand Washing'
11.30 am – 11.45 noon	Health Education on 'Hand Hygiene'
11.45 am to 12 noon	Demonstration of Hand washing by students

21/10/2022

Dr. Sheela Upendra

Dy. Director

Symbiosis College of Nursing (SCON)

Symbiosis International (Deemed University) Campus

Hill Base, Lavale, Pune - 412 115.

Department of Medical Surgical Nursing of Symbiosis College of Nursing observed the World hand washing Day on 14/10/2022 at Urban Community, Pashan. The students of BSc 3rd year organised a detailed program for the residents of Pashan urban community.

The day started at 9 am with a group of students who have gone door-to-door to invite people to observe the event. The event began with an introduction to the world hand washing day Ms. Kiran Kamble. Later the students performed a skit on ill-effects of not washing hands which was applauded by the natives.

Following the skit, the student group performed a dance showing beautiful moves that showed all the steps of hand washing in an innovative way. Some children danced to their tune also.

After this, Ms. Manasi Waghambare and Ms. Purva Kumbhar demonstrated the correct way of hand washing to the public. A 5-year old girl re-demonstrated the whole process again.

The event concluded with a vote of thanks.

Activities of Community Health Department, SCON:

- **Date:** 8th November 2022
- **Day:** Tuesday
- **Time:** 11:00 am -2:00 am
- **Venue:** Pashan ,Pune
- **Group:** M.Sc Nursing 1st Year, M.Sc 2nd Year and B.Sc Nursing 4th Year
- **Topic :** Stomach Cancer Awareness Day

Faculty Name:

Dr. S.G. Joshi

Dr. Jasneet Kaur

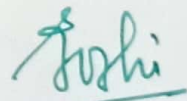

Dr. Ranjana Chavan

Dr .Dipali Dumbre

Ms. Roma Shinde

THE FOLLOWING ACTIVITIES ARE CARRIED OUT:

- Supervision of the program was done by M.Sc. 1st and 2nd year.
- Program was conducted by MSc and B.Sc Nursing 4th Year
- Various AV Aids are prepared and presented by B.Sc. (N) 4th year.
- Health education was given.
- Stomach Cancer awareness related skit was presented by B.Sc. 4th year.
- Slogans are made by the students.
- Interactive session by participants by asking doubts regarding presentation.

Dr. Sonopant G. Joshi
Director & Professor
Symbiosis College of Nursing(SCON)
Hill Base Campus
Lavale, Pune -412 115.

OBJECTIVES:

- Raising public awareness and supporting educational efforts about stomach cancer, including risk factors, prevention, and early detection
- Recognizing the necessity for increased financing and research towards the early detection and treatment of stomach cancer.
- Empowerment by uniting the caring power of stomach cancer patients globally.

A short awareness session on the stomach cancer was conducted at Pashan Pune on 8th November 2022. This session aims to enhance the knowledge regarding stomach cancer Disease. As due to changing lifestyle people are changing their habits pertaining to diet and they are becoming more victim for the stomach cancer. Despite the progressive declination of stomach cancer or gastric cancer incidence, it must be understood that it is still the second-biggest cause of cancer-related death, with the Asian populations demonstrating the highest risk of acquiring gastric cancer. General awareness about H. pylori induced gastric ulcers and cancers is poor

Geographic variations in the incidence of stomach cancer have been attributed to a number of causes, environmental and hereditary factors. In addition, Helicobacter pylori infection has been linked to gastric cancer, and infection rates and varieties of infecting bacteria vary in Asia and other countries of the world. The statistics of stomach cancer include

- 5th most common cancer worldwide
- 4th most common cancer in men and
- 7th most common cancer in women

 Dr. Sonopant G. Joshi
 Director & Professor
 Symbiosis College of Nursing(SCON)
 Hill Base Campus
 Lavale, Pune -412 115.

Now a days due to faculty life style people are not aware about the diet, lack of exercise and other factors like faculty health and dietary pattern. Hence the chances and risk of stomach cancer is increasing day by day.

Hence it has become need of the hour that we need to create awareness regarding the stomach cancer. So the students of Symbiosis College Of Nursing took the initiative to make it possible

The teachers who accompanied the program were, Dr. Jasneet Kaur, dr. Dipali Dumber

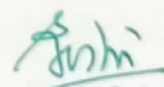

Dr. Ranjana Chavan, and Ms. Roma Shinde

THE FOLLOWING ACTIVITIES ARE CARRIED OUT:

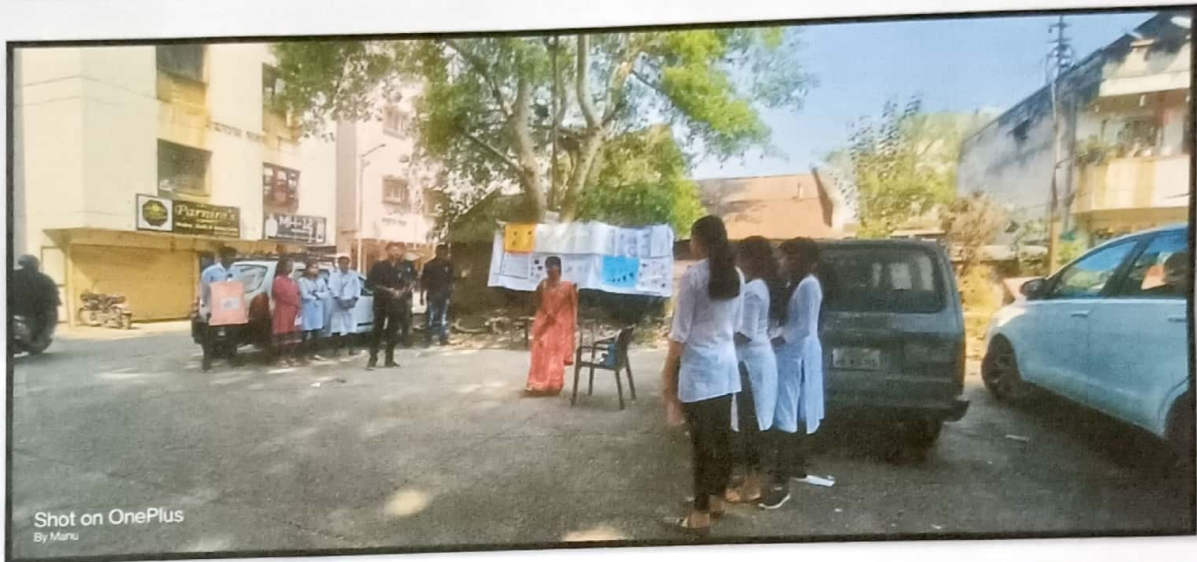

- Supervision of the program was done by M.Sc. 1st and 2nd year.
- Program was conducted by B.Sc Nursing 4th Year
- Various AV Aids are prepared and presented by B.Sc. (N) 4th year.
- Health education was given.
- Stomach cancer related skit was presented by B.Sc. 4th year.
- Slogans are made by the students.
- Interactive session by participants by asking doubts regarding presentation.

CONCLUSION:

At the end of the program students were able to clarify the doubts of people and they also got adequate knowledge about stomach cancer. The feedback from general population was good, and the session and overall program was interactive .

 Hill Base Campus
 Lavale, Pune-412 115.

Activities of Community Health Department, SCON:

- **Date:** 11th November 2022
- **Day:** Friday
- **Time:** 11:30 am -2:00 am
- **Venue:** Tai apartment, Panchashil Nagar, Pashan Gaon, Pashan
- **Group:** Community people
- **Topic:** "Pneumonia" Done among the community people at Tai apartment, Panchashil Nagar, Pune- 21

Faculty Name:

Dr. S.G. Joshi

Dr. Jasneet Kaur

Mrs. Ranjana Chavan

Ms. Roma shinde

OBJECTIVES:

- Assess the knowledge of Community people regarding pneumonia.
- Awareness among boarders about the importance of pneumonia.
- Demonstrate the social importance of pneumonia.

Dr. Sonopant G. Joshi
Director & Professor
Symbiosis College of Nursing(SCON)
Hill Base Campus
Lavale, Pune-412 115.

- Encourage the participants to take responsibility of their health and cleanness in a friendly environment to remain mentally, physically and socially healthy.
- Teach the attendees how to take care of hand hygiene cloth's hygiene, home remedies prevention for pneumonia in day to day life in the presence and the absence of certain facilities.

A short awareness session on the Pneumonia was conducted at Tai apartments Panchashil Nagar, Pashan Goan, Pashan. Pune-21 on 11th November 2022. This session aims to demonstrate the importance of maintaining good personal hygiene and illustrate the importance of comprehensive Environmental hygiene to maintain a good health and a better personality in a certain society. Personal hygiene is important for many reasons, for instance, to have a better personality, a good health, for social reasons and for psychological issues. Good hygiene perpetuates a nice image of an individual in a society. Emphasizing on good personal hygiene can reduce a risk of Pneumonia. The good personal hygiene is as simple as hand washing which can reduce the plethora of illnesses, infections, and disorders. In a social situation a clean and tidy appearance can boost one's confidence and reflects a positive image of that individual to others. It is more frequently noticed that a clean and tidy person usually gets more attention in a public platform and people usually tends to trust him/her more. Unhygienic people are mostly avoided by others and most of the times the stress level of unhygienic people is high as compare to hygienic people. So to keep ourselves socially, mentally, and physically healthy it is important to be dirt free and should maintain a good health life style.

The teachers who accompanied the program were Dr. S.G Joshi, Dr. Jasneet Kaur, Mrs. Ranjana Chavan, Ms. Roma Shinde

Impact of the Workshop

- ✓ Participants were excited to make use of the acquired knowledge from the session about pneumonia. In their daily life to maintain a better social, mental, and physical health.
- ✓ Participants were happy to share the basic information about personal hygiene to young ones back at their home and in their neighborhood to maintain a healthy society in their communities.

S.G. Joshi

Dr. Sonopant G. Joshi
Director & Professor
Symbiosis College of Nursing(SCON)
Hill Base Campus
Lavale, Pune-412 115.

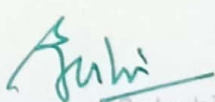

- ✓ This session help the attendees to enhance good habits and make them a better person in a certain society.
- ✓ This session was also helpful to teach the participants many ways to get rid of infectious illnesses and contiguous disorders while maintaining a hygienic life style.

THE FOLLOWING ACTIVITIES ARE CARRIED OUT:

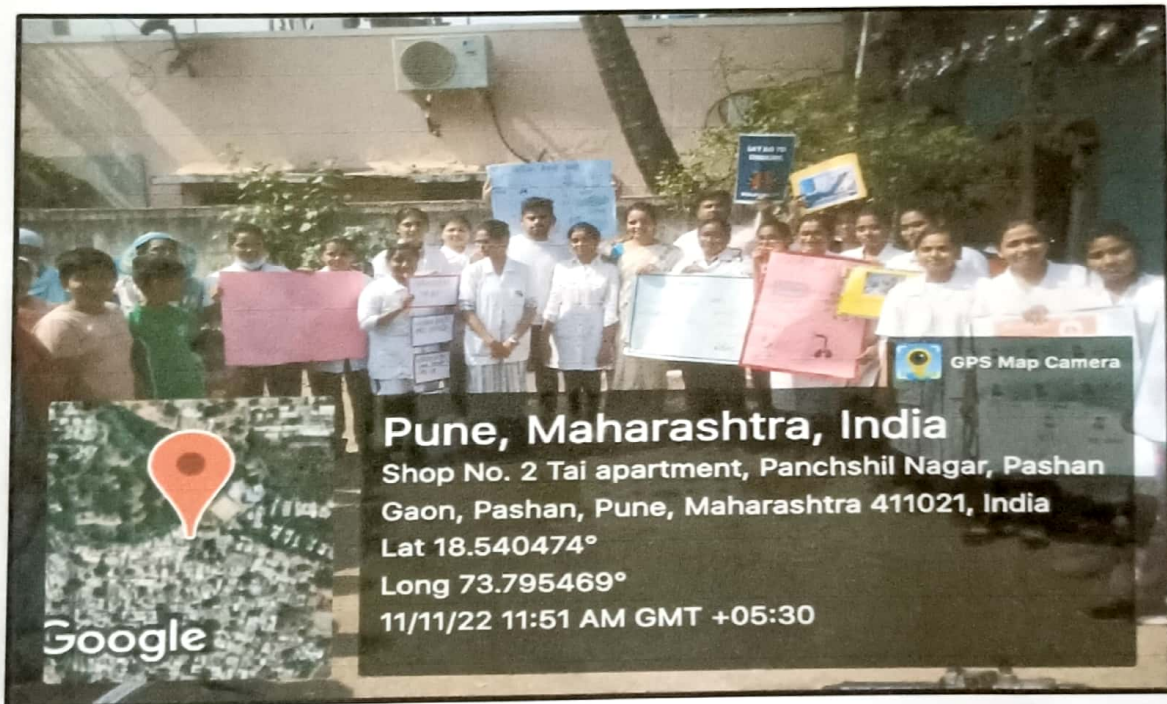

- Supervision of the program was done by M.Sc. 2nd year, Ms. Roma shinde and Mrs. Jasneet Kaur
- Program was conducted by PB B.sc 2st year.
- Various AV Aids are prepared and presented by PB.B.Sc. (N) 2th year.
- Health education was given.
- Slogans and Song are prepared by the students.
- Interactive session by participants by asking doubts regarding presentation.

CONCLUSION:

At the end of the program students were able to grasp adequate knowledge about "PNEUMONIA". The feedback from the Community people was that, the program was well organized, and it was beneficial for the society. And the support from the people is very enthusiastic and positive.

Activities of Community Health Department, SCON:

- **Date:** 14th November 2022
- **Day:** Monday
- **Time:** 11:00 am -2:00 am
- **Venue:** Pashan ,Pune
- **Group:** M.Sc Nursing 1st and 2nd Year and B.Sc Nursing 4th Year
- **Topic :** World Diabetes day
- **Faculty Name:**

Dr. S.G. Joshi

Dr. Jasneet Kaur

Dr Ranjana Chavan

Ms. Roma Shinde

World Diabetes Day provides an opportunity to raise awareness of diabetes as a global public health issue and what needs to be done, collectively and individually, for better prevention, diagnosis and management of the condition.

This year's theme, 'access to diabetes education', underpins the larger multi-year theme of access to care'.

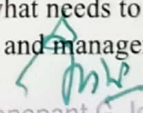

In the lead-up to and on 14 November, WHO will highlight not only the challenges, but more importantly the solutions, to scaling-up access to diabetes medicines and care.

WHO's World Diabetes Day activities will cover issues ranging from championing the priorities of people living with diabetes in advocacy to the Global Diabetes Compact, which drives efforts globally to reduce the risk of diabetes and ensure access to treatment and care.

World Diabetes Day provides an opportunity to raise awareness of diabetes as a global public health issue and what needs to be done, collectively and individually, for better prevention, diagnosis and management of the condition.

OBJECTIVES:

1. To raise awareness of diabetes as a global public health issue and what needs to be done, collectively and individually, for better prevention, diagnosis and management of the condition.

Dr. Sonopant G. Joshi
Director & Professor
Symbiosis College of Nursing(SCON)
Hill Base Campus
Lavale, Pune-412 115.

As we are facing serious health issue of communicable disease but non communicable diseases are also becoming major serious health issues. In that Diabetes has become more serious disease as it is also called **SILENT KILLER DISEASE**. Hence it has become need to of the hour to create awareness regarding the diabetes in general people.

We being health care providers students of Symbiosis College of Nursing have celebrated world diabetes on 14th November 2022 at Pashan with the great enthusiasm. This program aims to enhance the knowledge regarding prevention and management of diabetes among general population. As due to changing lifestyle people are changing their habits pertaining to diet and they are becoming more victim for the diabetes.

Now a days due to faculty life style people are not aware about the diet, lack of exercise, and other factors like faculty health and dietary pattern. Hence the chances and risk of diabetes increasing day by day.

Hence it has become need of the hour that we need to create awareness regarding the diabetic day. So the students of Symbiosis College Of Nursing took the initiative to make it possible

The teachers who accompanied the program were Dr. Jasneet Kaur, Dr. Ranjana Chavan, and Ms. Roma Shinde

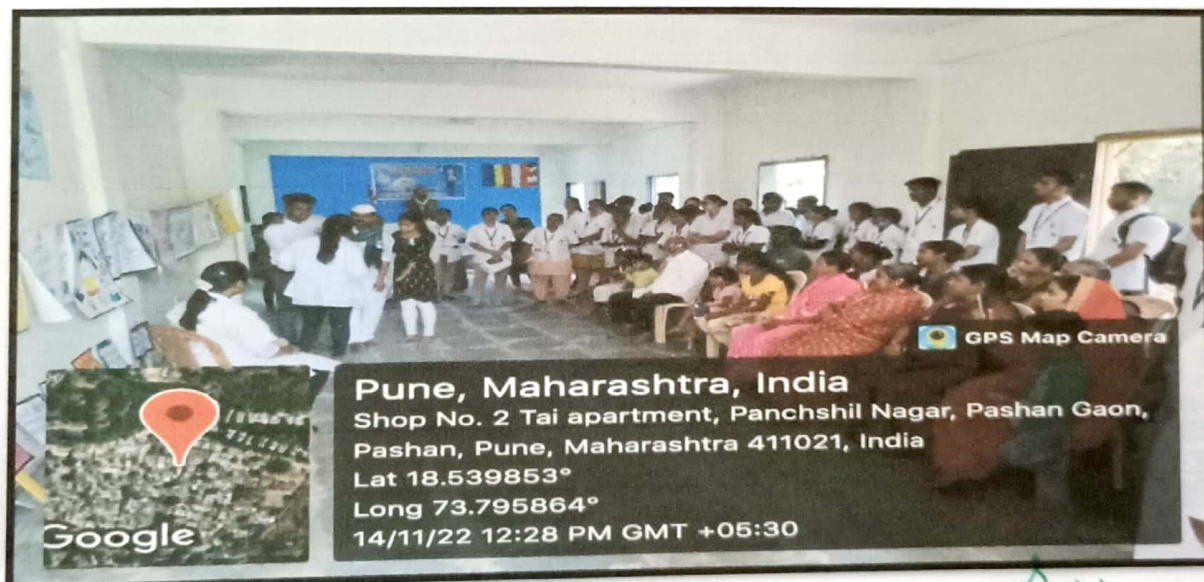

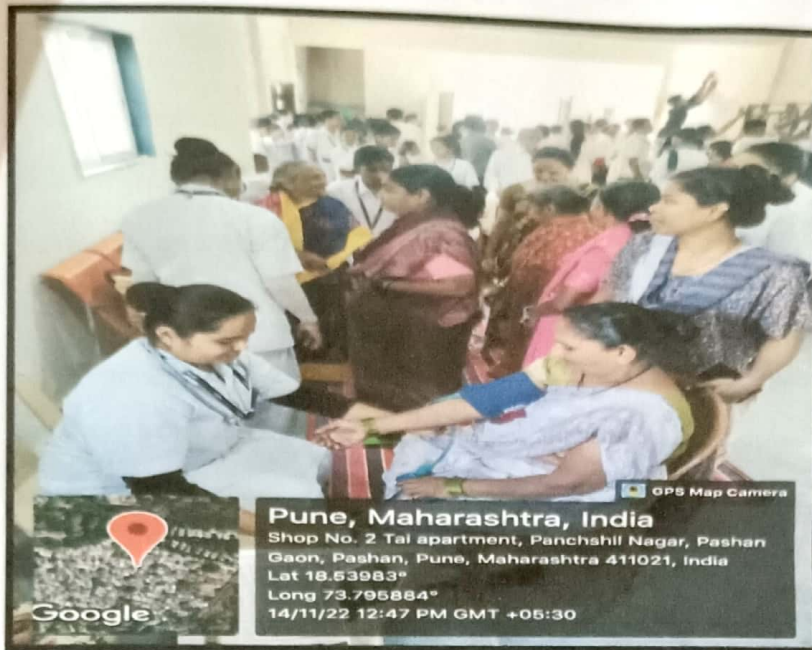

THE FOLLOWING ACTIVITIES ARE CARRIED OUT:

- Supervision of the program was done by M.Sc. 1st and 2nd year.
- Program was conducted by MSc and B.Sc Nursing 4th Year
- Various AV Aids are prepared and presented by MSc Nursing and B.Sc. (N) 4th year.
- Health education was given.
- Food exhibition for diabetic people and Gestational Diabetic women's
- Diabetes awareness related skit was presented by B.Sc. 4th year.
- Slogans are made by the students.
- Interactive session by participants by asking doubts regarding presentation.
- Health check up was carried out by MSc students.

Dr. Sonopant G. Joshi
Director & Professor
Symbiosis College of Nursing(SCON)
Hill Base Campus
Lavale, Pune-412 115.

CONCLUSION:

At the end of the program students were able to clarify the doubts of people and they also got adequate knowledge about Diabetic. The feedback from general population was good and the session and overall program was interactive.

ACTIVITY OF COMMUNITY HEALTH DEPARTMENT, SCON:

- **Date:** 25th Nov 2022
- **Day:** Friday
- **Time:** 11:30 am -2:00 am
- **Venue:** Pashan, PHC Centre, Pune
- **Group:** 4th to 5th Class and Parents
- **Topic:** Child Safety, Pune.,

FACULTY NAME:

Dr. S.G. Joshi

Dr. Jasneet Kaur

Dr. Ranjana Chavan

Miss Roma Shinde

OBJECTIVES:

- Assess the knowledge about child safety and protection.
- Understand the importance of being aware of child protection issues.
- Teach the attendees how to take care of our child and how to protect from harmful product.
- Provide safe environment.
- Explain the parents to always supervise the child.

A Short awareness session on the child safety and protection was conducted at Pashan PHC CENTER Pune, on 25th November. This session aims to demonstrate the importance of maintaining child safety and protection. We explain the parents about child safety, in included that road safety, poisoning, child safety at home, etc. It's important to protect the child from harmful product and object. Its helps to reduce their vulnerability in harmful situation. It also means protecting children against social, psychological, and emotional insecurity and distress. Teach your kids to always keep the door closed. Explain the parents to teach the child away from the product. Make sure the medication is stored properly and out of the way. No playing on the roads.

Dr. Sonopant G. Joshi
Director & Professor
Symbiosis College of Nursing(SCON)
Hill Base Campus
Lavale, Pune-412 115.

SAFETY RULES:

- 1) Never touch guns.
- 2) Never play with fire.
- 3) Hold a big person's hand when you cross the street.
- 4) Ask the person in charge before you pet a dog.
- 5) Have a big person watch you when you go in water.
- 6) Wear a helmet when you ride on wheels.

The teachers who accompanied the program were Dr. S.G Joshi, Dr. Jasneet Kaur, Dr Ranjana Chavan, Miss Roma Shinde.

IMPACT OF THE WORKSHOP:

- ✓ Participants were excited to make use of the acquired knowledge from the session about child safety and protection
- ✓ Participants were happy to share the basic information about child safety to young ones back at their home and in their neighborhood child safety communities.
- ✓ This session helps the attendees to maintain the good child safe environment and protection at home and society.
- ✓ This session was also helpful to teach the participants many ways to provide child safe environment.

THE FOLLOWING ACTIVITIES ARE CARRIED OUT:

- Supervision of the program was done by M.Sc. 2nd year.
- Program was conducted by M.Sc. 1st year.
- Various AV Aids are prepared and presented by B.Sc. (N) 4th year.

Dr. Sonopant G. Joshi
Director & Professor
Symbiosis College of Nursing (SCON)
Hill Base Campus
Lavale, Pune - 412 115.

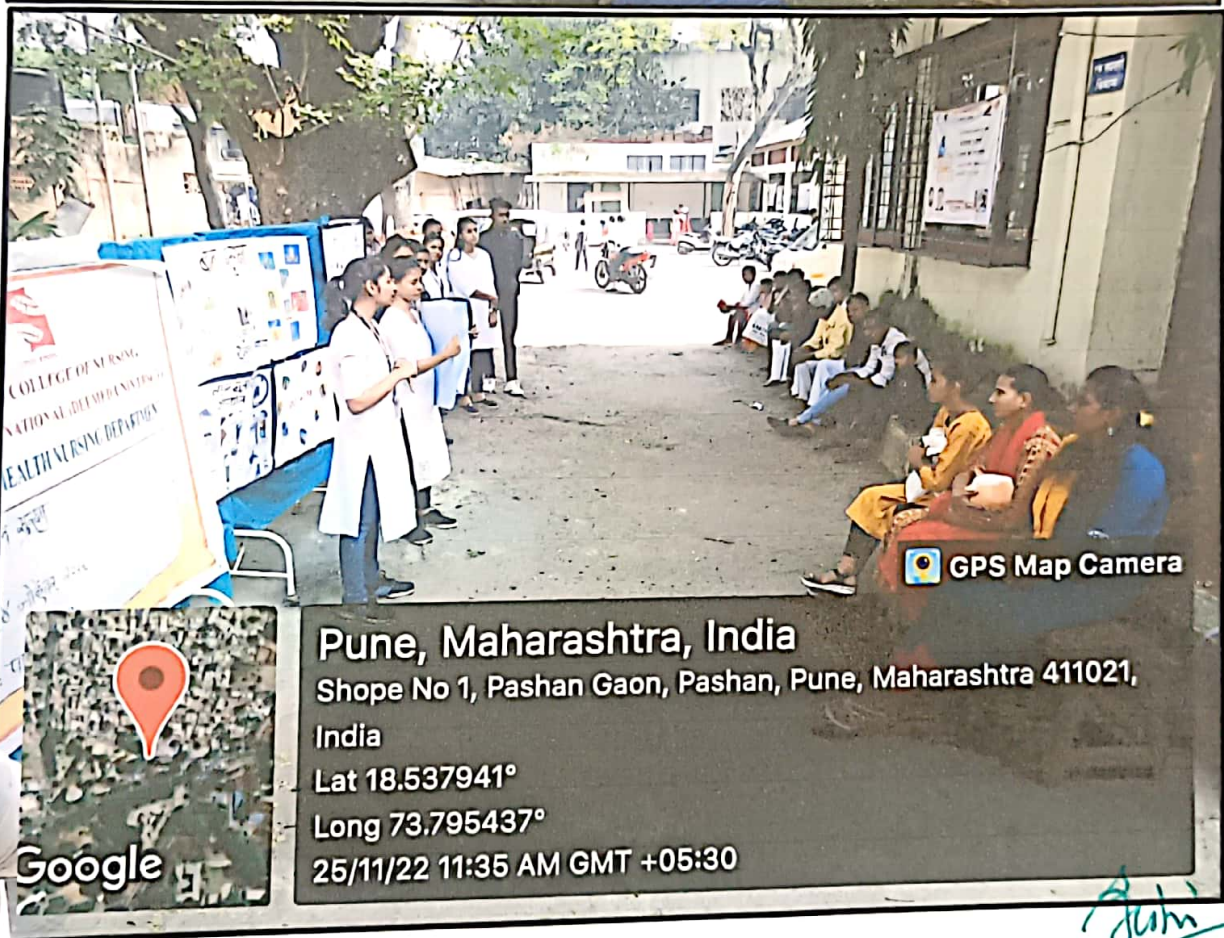

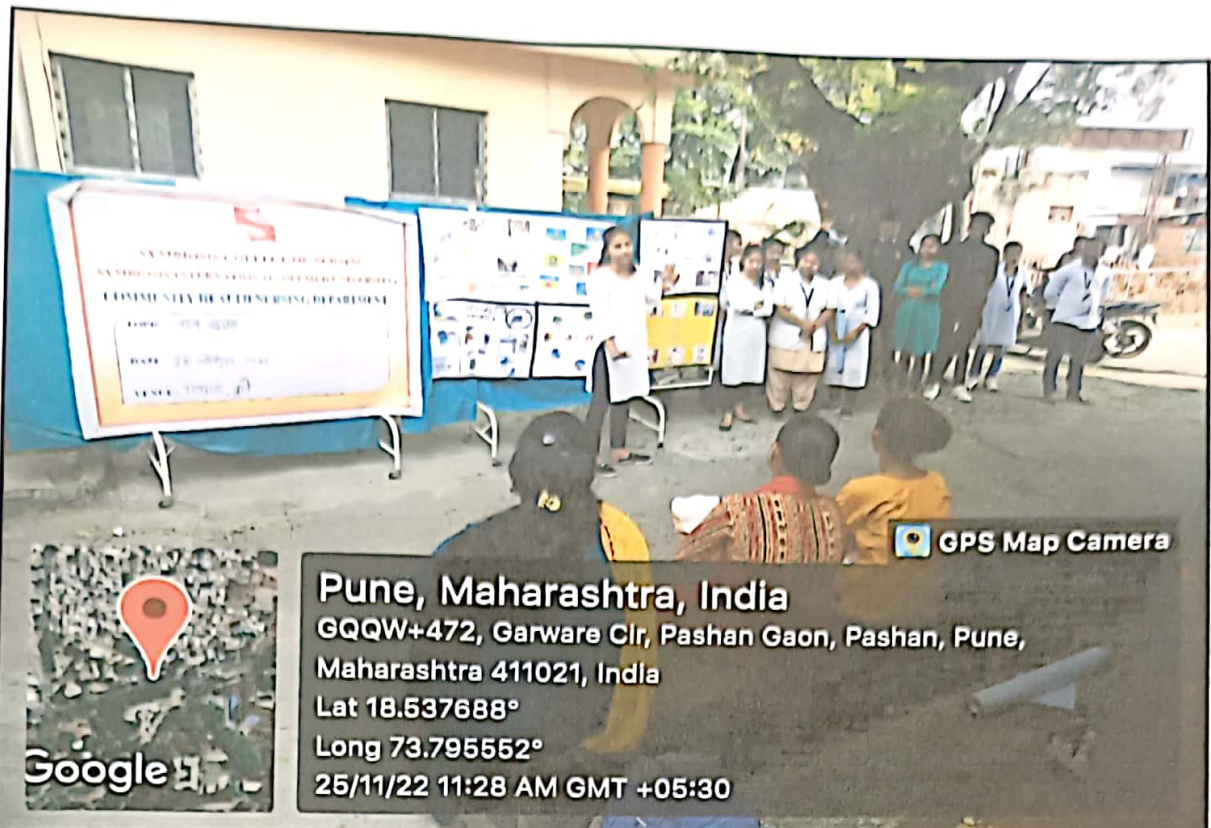

- Health education was given.
- Slogans are made by the students.
- Interactive session by participants by asking doubts regarding presentation.

CONCLUSION:

At the end of the program students were able to grasp adequate knowledge about CHILD SAFTY The feedback from the parents and child was that the program was well organized, and it was beneficial for the society. And the support from the parents and child is very enthusiastic and positive.

World AIDs Day 2022 - plan.docx

75K

PREAMBLE

World Aids Day

What is World AIDS Day?

World AIDS Day takes place on 1 December each year. It's an opportunity for people worldwide to unite in the fight against HIV, to show support for people living with HIV, and to commemorate those who have died from an AIDS-related illness. Founded in 1988, World AIDS Day was the first ever global health day.

Why is World AIDS Day Important?

Over 105,000 people are living with HIV in the UK. Globally, there are an estimated 38 million people who have the virus. Despite the virus only being identified in 1984, more than 35 million people have died of HIV or AIDS related illnesses, making it one of the most destructive pandemics in history.

Today, scientific advances have been made in HIV treatment, there are laws to protect people living with HIV and we understand so much more about the condition. Despite this, each year in the UK over 4,139 people are diagnosed with HIV, people do not know the facts about how to protect themselves and others, and stigma and discrimination remain a reality for many people living with the condition.

World AIDS Day is important because it reminds the public and government that HIV has not gone away – there is still a vital need to raise money, increase awareness, fight prejudice and improve education.

Dr. Sonopant G. Joshi
Director & Professor
Symbiosis College of Nursing(SCON)

SYMBIOSIS COLLEGE OF NURSING

Symbiosis International (Deemed University)

(Established under section 3 of the UGC Act 1956 vide notification No F 9-12 2001-U3 Government of India)

Re-Accredited by NAAC with 'A' grade

Founder: Prof. Dr. S.B. Mujumdar (Awarded "Padma Bhushan" in 2012 & "Padma Shri" in 2005)

REPORT

World Aids Day – 2022

Department of Medical Surgical Nursing - SCON

The global HIV response is in danger, even as HIV remains a major public health issue that affects millions of people worldwide. Over the last few years progress towards HIV goals has stalled, resources have shrunk, and millions of lives are at risk as a result. Division, disparity and disregard for human rights are among the failures that allowed HIV to become and remain a global health crisis. On 1 December WHO joins partners to commemorate World AIDS Day 2022, under the theme "Equalize". WHO is calling on global leaders and citizens to boldly recognize and address the inequalities which are holding back progress in ending AIDS; and equalize access to essential HIV services particularly for children and key populations and their partners - men who have sex with men, transgender people, people who use drugs, sex workers, and people in prisons.

This year's theme, "Equalize," calls for collective action and Symbiosis College of Nursing (SCON) is never behind in creating awareness in the community.

Various events were organised by SCON to bring about awareness.

The event was planned as under.

Day : Friday

Date : 7th December 2022

Time : 9am to 12 pm

Venue: Urban Community, Pashan

Faculty In-charge: Mrs. Manisha Mistry, Dr. Dipali Dumbre and Ms. Pradnya Bhore

Groups of students:

1. B.Sc. Nursing 3rd year students – Batch 2020-24
2. P.B.B.Sc. 1st year – Batch 2022-24
3. M.Sc. 1st year – Batch 2022-24

Dr. Sonopant G. Joshi
Director & Professor
Symbiosis College of Nursing (SCON)
Hill Base Campus
Lavale, Pune-412 115.

Program Schedule

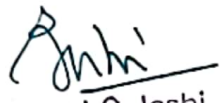

Time	Activity
9 am - 11 am	Assembly of people at the Venue
11.15 am - 11.18 am	Welcome by Ms. Roshni Ladkat, B.Sc. 3 rd year
11.18 am - 11.22 am	Skit by students on 'World Aids day'
11.22 am - 11.30 am	Health Education on 'World Aids day'
11.30 am - 12 noon	Rally in and around Pashan urban community

Department of Medical Surgical Nursing of Symbiosis College of Nursing observed the World hand washing Day on 07/12/2022 at Urban Community, Pashan. The students of B.Sc. 3rd year organised a detailed program for the residents of Pashan urban community.

The day started at 9 am with a group of students who have gone door-to-door to invite people to observe the event. The event began with an introduction to the World Aids Day Ms. Roshni Ladkat. Later the students performed a skit on Aids and its effects on mother and child which was applauded by the natives.

Following the skit, the students of M.Sc. 1st year and P.B.B.Sc. 1st year gave a detailed health education on HIV / AIDS.

The event concluded with a vote of thanks.

SYMBIOSIS COLLEGE OF NURSING

Report on School Health Program

- **Date:** 22nd December 2022
- **Day:** Thursday
- **Time:** 8:30 am -2:00 am
- **Venue:** Hutatma Rajguru Vidyalaya, Pandavanagar. S.B road. Pune
- **Topic:** Personal Hygiene, Good touch and Bad touch, Diet.

M.Sc. Nursing students from Symbiosis College of Nursing have organized School health program -Health Check up camp under the guidance of Dr. S.G.Joshi, Dr.Jasneet Kaur and Dr.Ranjana Chavan. Children are the most vulnerable age group of the society and they are the future of the country, hence it is an important to provide good quality health to the child. Health is a right of an individual and everybody should get all preventive, promotive, curative and rehabilitative quality health care.

As we know prevention is better than cure, the main focus of conducting the school health program is that to identify the various health problem of the children and to provide them appropriate care.

ACTIVITY OF COMMUNITY HEALTH DEPARTMENT, SCON:

- **Date:** 22nd December 2022
- **Day:** Thursday
- **Time:** 8:30 am -2:00 am
- **Venue:** Hutatma rajguru vidyalaya, Pandavanagar. S.B road. Pune
- **Group:**
- **Topic:** Personal Hygiene, Good touch and Bad touch, Diet.
- **FACULTY NAME:**

Dr. S.G. Joshi

Dr. Jasneet Kaur

Dr. Ranjana Chavan

OBJECTIVES:

- Assess the knowledge of school student regarding Personal Hygiene, Diet and Good touch and Bad Touch.
- Awareness among boarders about the importance of personal hygiene.
- To differentiate between Good touch and Bad touch.
- To Reduce the Child abuse and protection from sexually assaults.
- Demonstrate the social importance of personal hygiene to maintain a hygienic life style.
- Encourage the participants to take responsibility of their health and cleanness in a friendly environment to remain mentally, physically and socially healthy.
- Teach the attendees how to take care of hand, body, tooth, foot, and cloth's hygiene in day-to-day life in the presence and the absence of certain facilities.

- Improve nutrition and health outcomes of segments of the children, through availability of foods that would increase intake of vegetables and fruits and increase micronutrient intake.

A short awareness session on the personal hygiene and Good touch bad touch was conducted at Hutatma rajguru vidyalaya, Pandavanagar. S.B road. Pune, on 22nd December 2022. This session aims to demonstrate the importance of maintaining good personal hygiene and illustrate the importance of comprehensive cleaning to maintain a good health and a better personality in a certain society. Personal hygiene is important for many reasons, for instance, to have a better personality, a good health, for social reasons and for psychological issues. Good hygiene perpetuates a nice image of an individual in a society. Emphasizing on good personal hygiene can reduce a risk of many social, mental, and health problems. The good personal hygiene is as simple as hand washing which can reduce the plethora of illnesses, infections, and disorders. In a social situation a clean and tidy appearance can boost one's confidence and reflects a positive image of that individual to others. It is more frequently noticed that a clean and tidy person usually gets more attention in a public platform and people usually tends to trust him/her more. Unhygienic people are mostly avoided by others and most of the times the stress level of unhygienic people is high as compare to hygienic people. So to keep ourselves socially, mentally, and physically healthy it is important to be dirt free and should maintain a hygienic life style. The teachers who accompanied the program were Dr. S.G Joshi, Dr. Jasneet Kaur, Dr. Ranjana Chavan.

Impact of the School Health Program:

- ✓ Participants were excited to make use of the acquired knowledge from the session about personal hygiene in their daily life to maintain a better social, mental, and physical health.
- ✓ Participants were happy to share the basic information about personal hygiene to young ones back at their home and in their neighborhood to maintain a healthy society in their communities.
- ✓ This session helps the attendees to enhance good habits and make them a better person in a certain society.

- ✓ This session was also helpful to teach the participants many ways to get rid of infectious illnesses and contagious disorders while maintaining a hygienic life style.
- ✓ Taught children “you’re the boss of your body”
- ✓ Safe (good) touches feel caring, like pats on the back or wanted hugs. Unsafe (or bad) touches hurt your body or feelings, such as pinching or hitting.
- ✓ This session was important for children must know that no one is ever allowed to touch their private parts, and that it is important to keep these areas covered and safe in public spaces (which includes school too). It is also important to teach children about respect for ‘body space’.

THE FOLLOWING ACTIVITIES ARE CARRIED OUT:

- Supervision of the program was done by M.Sc. 2nd year.
- Program was conducted by M.Sc. 1st year and M.Sc. 2nd year (Community Health Nursing).
- Various AV Aids are prepared and presented.
- Health Check and Physical Examination for children are carried out
- Health education was given.
- Slogans are made by the students.
- Interactive session by participants by asking doubts regarding presentation.

CONCLUSION:

At the end of the program students were able to grasp adequate knowledge about PERSONAL HYGIENE, DIET and GOOD TOUCH AND BAD TOUCH. The feedback from the school students was that, the program was well organized, and it was beneficial for the society. And the support from the school is very enthusiastic and positive. Primary health care should be accessible, affordable to the child as per that the routine check up had been carried out among the school child. Health education was given.

As well the feedback was taken from the students , teachers and parents. As the purpose of was fulfilled.

As the whole world is again facing the challenge of covid 19 , hence it is need of to educate society and most affected children.

The event was successfully conducted and everybody appreciated.

Work Distribution Plan:

MSc Nursing 2nd Year:

Overall planning will be done by MSc 2nd year Student.

Omsfree Gadewar	Health Education and Health check-up point
Prachi Jadhav	Ppt And Excel Preparation and Health check-up point
Priyanka kadam	Opening And Closing Program and Health check-up point
Sumit Rane	Physical Arrangement and Health check-up point
Rushikesh Sawant	Physical arrangement and Health check-up point

MSc Nursing 1st Year:

Sr. No	Name Of Student	Task Given
01	Chilke kartik nagesh	Physical Arrangement
02	Datar dipali uday	Health check-up point
03	Gaikwad arati rahul	Physical Arrangement
04	Gloria jechoash	Health check-up point
05	Karale ashwini trimbakeshwar	Health check-up point
06	Kunjit varsha santosh	Health Education
07	Makne avdhut diliprao	Photography and Crowd Management
08	Meshram ujjwala ramkrushna	Health check-up point
09	More kajal rajendra	Crowd Management
10	Patil namita dnyaneshwar	Health check-up point
11	Ritika dimri	Health check-up point
12	Suraj maharudra divate	Photography and Crowd Management
13	Wakchaaure sanyogita dilip	Health check-up point

**The School Health Program –Health Check-up Camp

1: 15pm – 2:15 pm	Lunch break
2:15pm – 3:00 pm	Recording and reporting of the program

Dr. Sonopant G. Joshi
 Director & Professor
 Symbiosis College of Nursing(SCON)
 Hill Base Campus
 Lavale, Pune-412 115.

OBJECTIVES:

- To achieve case incidence below 100/100,000 population by the year 2023.
- To reduce and maintain case fatality rate below 0.1% by the year 2023.
- To intensify epidemiological surveillance to detect and notify dengue cases real-time.
- To intensify entomological surveillance to forecast vector density and to take appropriate control measures.
- To apply appropriate integrated vector management (IVM) strategies to interrupt dengue transmission.
- To improve early diagnosis and case management.
- To detect epidemics early and to respond to potential epidemics effectively.
- To strengthen monitoring and evaluation to ensure optimal programme implementation, management and performances.
- To facilitate, link and conduct operational research in the prevention and management of dengue infections.

A short awareness session on the dengue was conducted at pratapnagar ,lavalegoan, Pune on 11th January, 2023. This session aims To improve early diagnosis and case management in a certain area. Dengue prevention is important for many reasons, for instance, to have a better personality, a good health, for social reasons and for psychological issues. Good environmental hygiene perpetuates a nice image of an individual in a area. Emphasizing on good environmental hygiene can reduce a risk of many social, metal, and health problems.

The teachers who accompanied the program were Dr. S.G Joshi, Dr. Jasneet Kaur, dr.Ranjana Chavan, Ms roma shinde.

Dr. Sonopant G. Joshi
Director & Professor
Symbiosis College of Nursing(SCON)
Hill Base Campus
Lavale, Pune -412 115.

Impact of the Awareness program on dengue

- Participants were excited to make use of the acquired knowledge from the session about dengue awareness in their daily surrounding life to maintain a better social, environmental, and physical health.
- Participants were happy to share the basic information about environmental hygiene to young ones back at their home and in their neighborhood to maintain a healthy society in their communities.
- This session help the attendees to improve the knowledge regarding dengue and surrounding environment.
- This session was also helpful to teach the participants many ways to get rid of infectious illnesses and contiguous disorders while maintaining an environmental hygienic life style.

THE FOLLOWING ACTIVITIES ARE CARRIED OUT:

- Supervision of the program was done by M.Sc. 2nd year.
- Program was conducted by PB.B.Sc. 2nd year.
- Various AV Aids are prepared and presented by PB.B.Sc (N) 2nd year.
- Awareness regarding dengue was given.
- Slogans are made by the students.
- Interactive session by participants by asking doubts regarding presentation.

Dr. Sonant G. Joshi
Director & Professor
Symbiosis College of Nursing (SCON)
Hill Base Campus
Lavale, Pune-412 115.

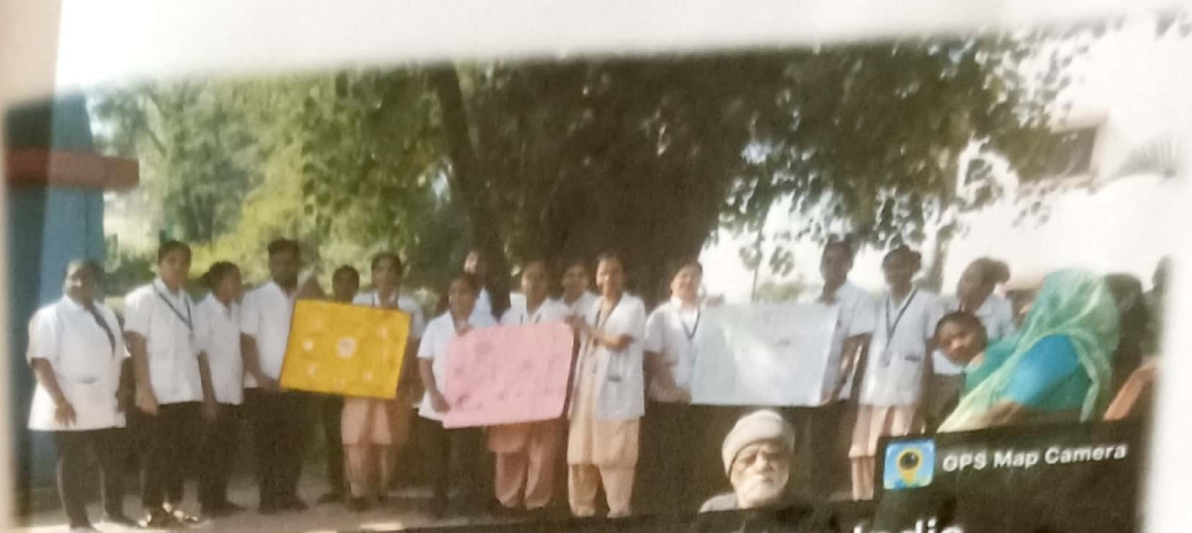

CONCLUSION:

At the end of the program present population were able to grasp adequate knowledge about awareness of dengue and its prevention. The feedback from the present population was that, the program was well organized, and it was beneficial for the community. And the support from the present people is very enthusiastic and positive.

INTRODUCTION:

Providing good nutrition in early childhood is essential for proper brain growth, overall development and to fight common infections. While carbs and fats provide the needed energy, proteins help build a child's body. Another reason to consider nutrition importance in children is because there is rapid nervous system development during childhood. In fact, it is during this phase when the brain and the nerve cells begin to strengthen their connections.

IMPORTANCE OF NUTRITION FOR CHILDREN:

- For good health & body development during the early years of life, it is important to have proper nutrition for children.

Dr. Sonopant G. Joshi
Director & Professor
Symbiosis College of Nursing(SCON)
Hill Base Campus
Lavale, Pune-412 115

- In case children do not eat the right amount of macronutrients such as protein, fat, and carbohydrates and micronutrients such as vitamin A, iodine, iron and zinc, in that scenario they can become ill or may develop mental health issues.
- Optimal nutrition and correction of nutritional deficiencies during the early years are of particular significance as beyond two years of age, and a reversal can become very difficult.
- However, WHO and UNICEF developed the Global Strategy for Infant and Young Child Feeding to improve children's development, health, and survival through optimum feeding practices.

OBJECTIVES:

- Assess the knowledge of school student regarding Nutrition Program.
- Awareness among boarders about the importance of Nutrition Program.
- Encourage the participants to take responsibility of their health and cleanness in a friendly environment to remain mentally, physically and socially healthy.
- Adequate and right nutrition is important for a healthy life.

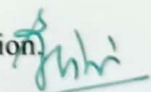

A short awareness session on the Nutrition Programme was conducted at Zilha Parishad Prathmik School, Rautnagar, Lavale Pune on 14th January 2023. This session aims to demonstrate the importance of Healthy food habits play a vital role in the growth of an individual and are necessary for overall holistic development and lifestyle.

The teachers who accompanied the program were Dr. S.G Joshi, Dr. Jasneet Kaur, Mrs. Ranjana Chavan, Miss Megha.

ACTIVITIES: The Nutrition Program ensures that participating Children receive foods that are based on nutritional standards, Final year nursing students have prepared diet with the use of cheap and easily available nutritive food stuff which is require to fulfil dietary requirements of under five children. Nutrition is essential part of growth and development of Children. Providing sufficient and balance diet as per calorie requirement is a key step to prevent malnutrition among children.

THE FOLLOWING ACTIVITIES ARE CARRIED OUT:

- Supervision of the program was done by M.Sc. 2nd year.
- Program was conducted by BSc Nursing 4th year, M.Sc. 1st year and M.Sc. 2nd year
- Various AV Aids are prepared and presented by B.Sc. (N) 4th year.
- Health education was given.
- Slogans are made by the students.
- Interactive session by pparticipants by asking doubts regarding presentation.

 Dr. Sonopant G. Joshi
 Director & Professor
 Symbiosis College of Nursing(SCON)
 Hill Base Campus
 Lavale, Pune - 412 115.

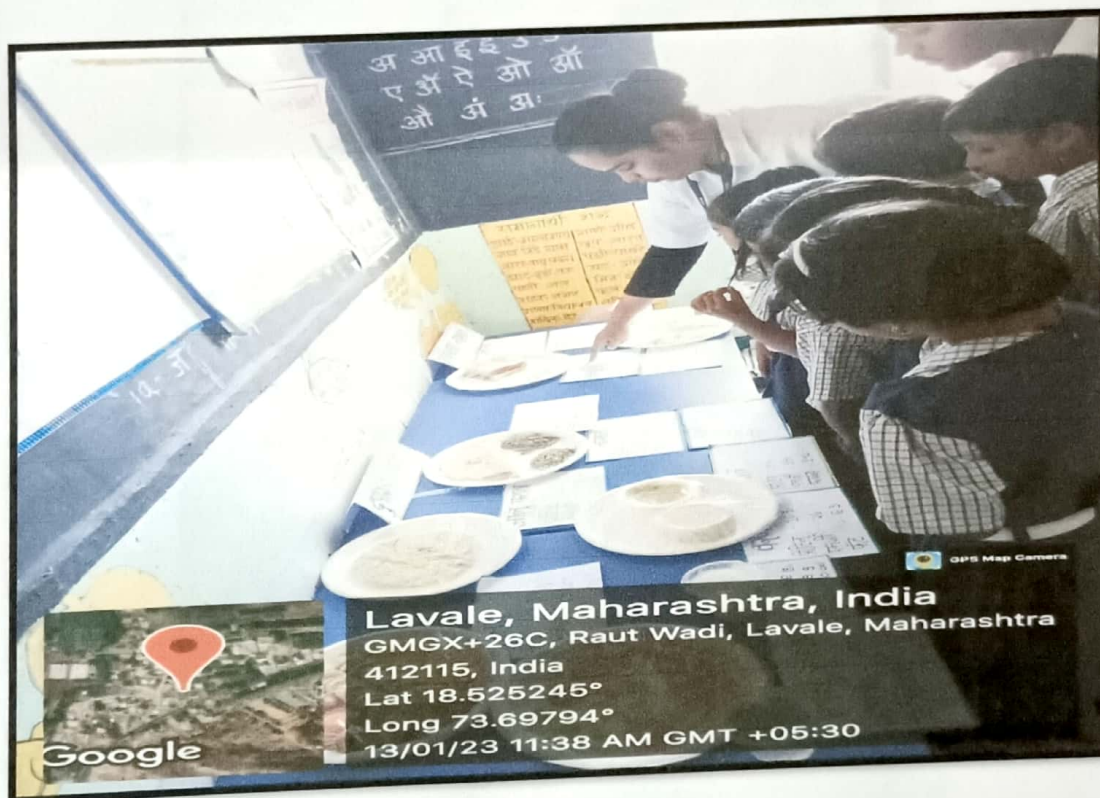

CONCLUSION:

The relationship between nutrition, well-being and learning is very strong. Nutrition for children is one of the major factors that impact a child's development as genes and environments are the other two important factors. The studies show that nutrition in a child's early years is linked to their health and academic performance in later years.

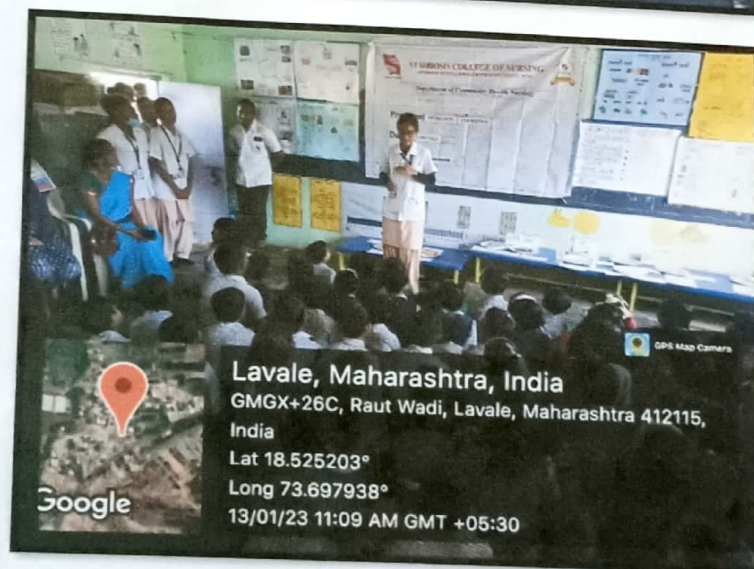

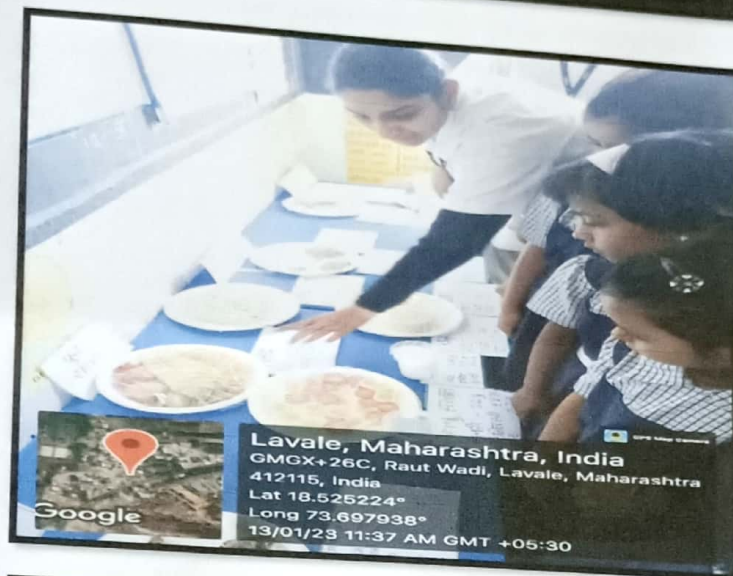

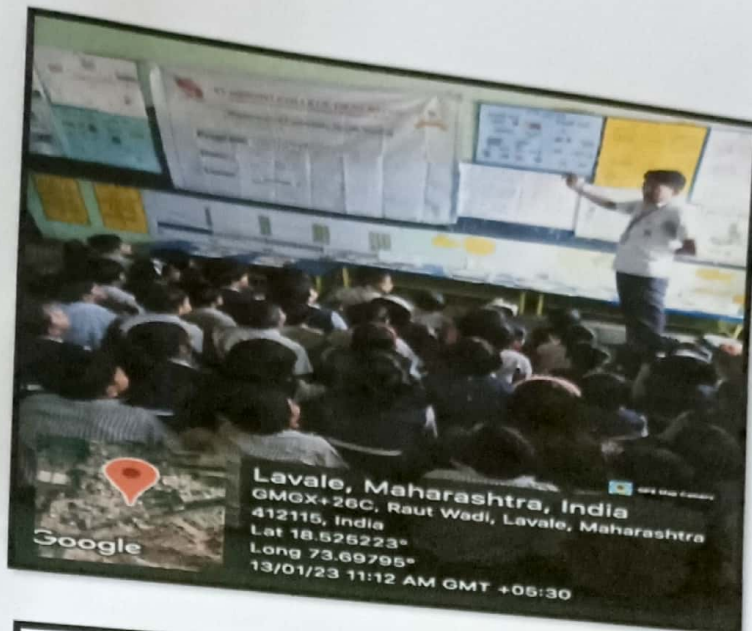

The dietary intake for infants, children, and adolescents maintains the current body weight and is adequate to support their normal growth and development.

A healthy diet meets the energy requirements and supplies essential for both macro and micronutrients for supporting the functioning of all vital processes. Growth during infancy is rapid. During this period, energy and nutrients' requirements are highest relative to body size compared with other growth periods.

At the end of the program students were able to grasp adequate knowledge about nutrition program. The feedback from the school students was that, the program was well organized, and it was beneficial for the society. And the support from the school is very enthusiastic and positive.

- **Day:** Monday
- **Time:** 9:00 am -3:00 am
- **Venue:** Lavale ,gaon
- **Group:** M.Sc Nursing 1st and 2nd Year and B.Sc Nursing 4th Year
- **Topic :** World Leprosy day
- **Faculty Name:**

Dr. S.G. Joshi

Dr. Jasneet Kaur

Dr Ranjana Chavan

Ms. Megha

Dr. Sonopant G. Joshi
Director & Professor
Symbiosis College of Nursing(SCON)
Hill Base Campus
Lavale, Pune - 412 115.

World Leprosy Day provides an opportunity to raise awareness of diabetes as a global public health issue and what needs to be done, collectively and individually, for better prevention, diagnosis and management of the condition.

This year's theme, 'Act Now End leprosy'

This international day is an opportunity to celebrate people who have experienced leprosy, raise awareness of the disease, and call for an end to leprosy-related stigma and discrimination.

World Leprosy Day (WLD) is celebrated on the last Sunday of January.

In 2023, World Leprosy Day is Sunday 29 January. This international day is an opportunity to celebrate people who have experienced leprosy, raise awareness of the disease, and call for an end to leprosy-related stigma and discrimination.

The theme of World Leprosy Day 2023 is "Act Now. End Leprosy." This year's theme calls attention to three key messages:

1. **Elimination is possible:** We have the power and tools to stop transmission and defeat this disease.
2. **Act now:** We need the resources and commitment to end leprosy. Prioritize leprosy elimination.
3. **Reach the unreachable:** Leprosy is preventable and treatable. Suffering from leprosy is needless.

Objective: To raise awareness about leprosy among community

World Leprosy Day is a celebration of the leprosy community and an opportunity to raise public awareness of leprosy, also known as Hansen's disease. Many persons affected, who share the challenges they have experienced as a result of their leprosy diagnosis. Suffering from leprosy is needless, and we have much to learn from people with lived experience of this disease.

We being health care providers students of Symbiosis College of Nursing have celebrated world LEPROSY day on 30th Jaunuary 2023at Lavale Gaon with the great enthusiasm. This program aims to enhance the knowledge regarding prevention and create awareness regarding leprosy .

Now a days due to faculty life style people are not aware about the diet, lack of exercise, and other factors like faculty health and dietary pattern. Hence the chances and risk of diabetes increasing day by day. As national health policies has made to eradicate the leprosy. And now

Dr. Sonopant G. Joshi
Director & Professor
Symbiosis College of Nursing(SCON)
Hill Base Campus
Lavale, Pune-412 115.

it really time to act and we have to help people and community participation and end the leprosy and reduce the social stigma about Leprosy.

Hence it has become need of the hour that we need to create awareness regarding the Leprosy day. So the students of Symbiosis College Of Nursing took the initiative to make it possible

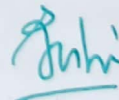

The teachers who accompanied the program were Dr. Jasneet Kaur, Dr. Ranjana Chavan, and Ms. Megha

THE FOLLOWING ACTIVITIES ARE CARRIED OUT:

- Supervision of the program was done by M.Sc. 1st and 2nd year.
- Program was conducted by MSc and B.Sc Nursing 4th Year
- Various AV Aids are prepared and presented by MSc Nursing and B.Sc. (N) 4th year.
- Health education was given.
- Food exhibition for diabetic people and Gestational Diabetic women's
- awareness related skit was presented by B.Sc. 4th year.
- Slogans are made by the students.
- Interactive session by participants by asking doubts regarding presentation.
- Health check up was carried out by MSc students.

CONCLUSION:

At the end of the program students were able to clarified the doubts of people and they also got adequate knowledge. The feedback from general population was good and the session and overall program was interactive. Now its important to create awareness regarding leprosy and take immediate preventive , curative and rehabilitative management regarding Lerposy . Now it high time to create awareness regarding leprosy and help the community to fight to and end leprosy .

Dr. Sonopant G. Joshi
Director & Professor
Symbiosis College of Nursing(SCON)
Hill Base Campus
Lavale, Pune-412 115.

The overall event was very informative and students took initiatives to create awareness regarding leprosy.

Activities of Community Health Department, SCON:

- **Date:** 24th March 2023
- **Day:** Friday
- **Time:** 9:00 am -2:00 am
- **Venue:** Aundh Chest Hospital., Pune
- **Group:** M.Sc Nursing 2nd year and B.Sc Nursing 4th Year
- **Topic :** World Tuberculosis Day
- **Faculty Name:**

Dr. S.G. Joshi

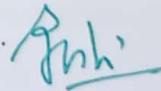

Dr. Jasneet Kaur

Dr Ranjana Chavan

The theme of World TB Day 2023 - **'Yes! We can end TB!'** conveys a message of hope that getting back-on-track to turn the tide against the TB epidemic is possible through high-level leadership, increased investments, faster uptake of new WHO recommendations and adoption of innovations, accelerated action and multisectoral collaboration.

The first World TB Day was observed in 1983, with the theme "Defeat TB: Now and Forever". Since then, the day has been marked every year with a new theme that focuses on a specific aspect of the global fight against TB. The theme for World Tuberculosis Day 2023 is "Yes! We can end TB!" which aims to inspire and encourage high-level leadership, increased investments, faster uptake of new WHO recommendations, adoption of innovations, accelerated action, and multisectoral collaboration to fight the Tuberculosis epidemic.

2023 is a critical year to push forward the agenda toward ending TB, as there are several high-level opportunities to raise visibility, increase political commitment, and enhance investments for the TB response. Heads of State will come together to deliberate on accelerating efforts to end TB, for the second time at the 2023 UN High-Level Meeting on TB at the General Assembly in September. The UN High-Level Meeting on TB will be held alongside two other high-level meetings focusing on UHC and pandemic preparedness. There are clear linkages between all three agendas. The prioritization of TB in the agenda of Heads of State and other leaders provides a strong impetus to step up progress against this ancient disease.

Dr. Sonopant G. Joshi
Director & Professor
Symbiosis College of Nursing(SCON)
Hill Base Campus
Lavale, Pune -412 115.

This year the spotlight of World TB Day will be on urging countries to ramp up progress in the lead-up to the 2023 UN High-Level Meeting on TB. WHO will also issue a call to action with partners urging Member States to accelerate the rollout of the new WHO-recommended shorter all-oral treatment regimens for drug-resistant TB.

Each year, we commemorate World Tuberculosis (TB) Day on March 24 to raise public awareness about the devastating health, social and economic consequences of TB, and to step up efforts to end the global TB epidemic. The date marks the day in 1882 when Dr Robert Koch announced that he had discovered the bacterium that causes TB, which opened the way towards diagnosing and curing this disease.

SIGNIFICANCE:

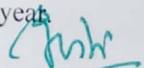

World TB Day is an opportunity to unite the global population in the fight against the disease. The day is also an opportunity to focus on the progress made in the prevention and treatment of Tuberculosis, and to advocate for more funding and research to combat the disease.

OBJECTIVES:

- Assess the knowledge regarding Tuberculosis and Nutritional need.
- To know about importance of early diagnosis of Tuberculosis.
- Awareness among boarders about the importance of Nutrition in TB.
- Encourage the participants to take responsibility of their health and cleanness in a friendly environment to remain mentally, physically and socially healthy.
- Adequate and right nutrition *is* important for a healthy life.

THE FOLLOWING ACTIVITIES ARE CARRIED OUT:

- Supervision of the program was done by M.Sc. 2nd year.
- Program was conducted by MSc and B.Sc Nursing 4th Year
- Various AV Aids are prepared and presented by MSc Nursing 2nd year and B.Sc. (N) 4th year.
- Health education was given by MSc 2nd year students.
- Food exhibition for is displaced for the TB patients from MSc Nursing 2nd year.
- Tuberculosis awareness related skit was presented by B.Sc. 4th year

Dr. Sonopant G. Joshi
Director & Professor
Symbiosis College of Nursing (SCON)
Hill Base Campus
Lavale, Pune-412 115.

- Slogans are made by the students.
- Interactive session by participants by asking doubts regarding presentation.

CONCLUSION:

At the end of the program students were able to clarified the doubts of people and they also got adequate knowledge about Tuberculosis. The feedback from general population was good and the session and overall program was interactive.
