REPORT OF CNE ON FINDING THE COMMON ERRORS AND ACHIEVING SKILLS IN DRUG ADMINISTRATION

Errors in drug administration are among the commonest medical errors. Children are particularly at risk for such errors because of the need to calculate doses individually. Even though nurses learn about drugs and its administration, during clinical work lots of errors come up. This workshop aims to improve the skills of nurses in calculating and administering drugs promptly and without error.

Date: 27th October 2017

Venue and place: Chanakya Hall, YCM hospital, Pune

Total delegates: 177
