REPORT OF SEMINAR CONDUCTED ON GENDER SENSITIZATION: HE OR SHE .TIME TO CHANGE THE MINDSET?

Venue: GFATM hall

Date: 29-08-2018

Time : 9:00 am to 2:00 pm

Gender Sensitization is a basic requirement to understand the sensitive needs of a particular gender. It helps us to examine our personal attitudes and beliefs and question the 'realities' that we thought we know. The need for this sensitivity has been felt and realised through times immemorial and in almost all kinds of human existence, across the globe. Recent discourses focus upon the need to sensitize gender issues on campus as many believe that education is the catalyst for change. Educational spaces instil thought and make one have a perception that they believe.
