The theme of this year's World AIDS Day is "Communities make the difference".

The commemoration of World AIDS Day, which will take place on 1 December 2019, is an important opportunity to recognize the essential role that communities have played and continue to play in the AIDS response at the international, national and local levels.

Communities contribute to the AIDS response in many different ways. Their leadership and advocacy ensure that the response remains relevant and grounded, keeping people at the center and leaving no one behind. Communities include peer educators, networks of people living with or affected by HIV, such as gay men and other men who have sex with men, people who inject drugs and sex workers, women and young people, counsellors, community health workers, door-to-door service providers, civil society organizations and grass-roots activists.

World AIDS Day offers an important platform to highlight the role of communities at a time when reduced funding and a shrinking space for civil society are putting the sustainability of services and advocacy efforts in jeopardy. Greater mobilization of communities is urgently required to address the barriers that stop communities delivering services, including restrictions on registration and an absence of social contracting modalities. The strong advocacy role played by communities is needed more than ever to ensure that AIDS remains on the political agenda that human rights are respected and that decision-makers and implementers are held accountable.

On the basis of this theme, Rally on AIDS control and prevention was organised in the collaboration with District AIDS control and prevention office, Pune.

Dr. Kakade. Dist. civil surgeon, Dr. Wankhede Dept. Dean sinhgad hospital Pune and Dr. Prasad Sonawane District Program Officer, District AIDS control and prevention office, Pune were chief guest for the rally. Along with Symbiosis College of Nursing, D.Y.Patil Arts and Commerce college students, Govt Nursing School Aundh, Pune students and other NGO participated in the rally. Around 280 participant were there in the rally. The motto of the rally
