World Mental Health Day 2019: Focus on Suicide prevention

DATE: 09/10/2019

VENUE: HOMI BHABHA, WADARWADI

World Mental Health Day is observed on 10 October every year, with the overall objective of raising awareness of mental health issues around the world and mobilizing efforts in support of mental health.

World Federation for Mental Health (WFMH) has decided to make “suicide prevention” the main theme of World Mental Health Day 2019.

Suicidal behaviour has existed throughout human history, but due to several complex factors, it has increased gradually in all parts of the world and, in the past few decades, has reached alarming statistical levels.

The Day had provided us an opportunity to visit Homi Bhabha and create awareness in the community in an empathetic way.

Students of 3rd year B.Sc nursing presented street play and created learning opportunities for all community people in the form of exhibition.
