## **Conference**

### **NURSES: EBB OR INNOVATE**

*Friday, 27 Sept, 2019*

#### **Introduction:**

Innovation is an important part of a nurse's professional responsibility. Across the globe, nurses are continually devising innovations that are changing professional nursing practice.

Daily life of Nurse is filled with managing, complicated patient Care, Utilizing ever changing new technologies, understanding and complying the new regulations and policies.

This brings in everyday challenge in the workplace managing Hitech-digital environment, satisfying the ever demanding consumers and foster cohesion with health team members.

To ease this situation nurses will have to create and facilitate the changes with innovation.

This workshop is an eye opener and will give a breakpoint for the Nursing Professionals. It will also provide a divergent proactive thinking and kindle the spirit of Innovation that is dormant in every Nurse.

**Aim:** The main aim of this workshop is to ignite the value and culture of new innovations across the spectrum of Nursing.

#### **Objectives**

- Encourage and Inspire Nurses to identify the need of Innovation.
- Motivate them to become an innovative thinkers
- Learn from experts the trajectory of creating, executing and marketing new dimensions in Nursing Practice.

#### **Learnings:**

1. Participants will see different innovations by eminent innovators who have already created the products and got it patented.
2. A discussion forum where they can discuss the barriers and obstacles.
